

CONDITIONS ON THE FLOOR NOW

Senatorial Fight Becomes Bitter--Conno's Men Work For Davidson Openly.

WORK OF MAKING LAWS CONTINUES

Many Measures Passed Today--Socialistic Member's Ideas As To The Liquor Traffic And Its Regulation.

[SPECIAL TO THE GAZETTE.] Madison, Wis., April 10.—The senatorial candidates and their workers have invaded the legislative halls, and today were busy "buzzing" the members during the session. The Stephenson claims are not so bright today, but his managers declare he has the situation well in hand and will be nominated on the first ballot. The Connor people seem more aggressive today in behalf of Gov. Davidson, but the governor still insists he knows nothing of these efforts for him.

A bill to empower the railroad commission to control the rail stock issued was ordered engrossed in the assembly after a fire of debate from socialist Thompson of Milwaukee, who wanted the bill made more drastic and obnoxious to the corporations. LeRoy championed the measure.

The state fire marshal bill was passed with 11 assemblymen voting in opposition. The Whitehead bill, carrying a deficiency appropriation of \$52,000 for charitable institutions was concurred in.

Senator Mager made a fight to compel the brewers' board issue annual bulletins of expenses and send a copy to each licensed bar, and to exempt the country barbers from the operation of the law. Senator Hudson opposed this and Senator Marsh was beaten by a vote of 15 to 14.

The banking committee introduced a new bill to deduct the real estate holding of the banks from the capital stock assessments.

Some universal ideas concerning the saloon as a sociologically important institution are expressed in a joint resolution introduced by Carl D. Thompson, socialist democrat, in the assembly, as follows: Whereas, the liquor traffic constitutes a social and economic problem that requires the most careful study on the part of all who are interested in the common welfare and especially on the part of those who are attempting to legislate with reference to the matter; and

Whereas, Practically every measure so far advanced upon this subject has entirely overlooked the tremendous effect of economic condition upon the working class; the poor wages, the long hours, the unsanitary and physically depressing conditions in the places of employment, the cheap adulterated food, and above all the housing of the working class in unhealthy, cheerless, comfortless hovels; and

Whereas, These conditions taken together constitute, according to all scientific standards of the subject, the most constant and powerful influence in creating and extending the evils of intemperance; and

Whereas, It has been proven that where these conditions have been bettered by the increase in wages, shortening of hours and improvement of conditions of labor, intemperance and the evil of the saloon have been lessened in that proportion; and

Whereas, Under the present economic conditions it is admitted and emphasized by every scientific and legislative investigation made that the saloon serves a very important and vital social function in our present society, especially in the cities, by offering to the working class a center of sociability, of warmth and cheer, of music and games, where they may read the papers and join in discussions, where they may even secure free food and some of the conveniences denied them in their homes, all at a price within their reach, and

Whereas, This social function constitutes an absolute necessity and a positive right of the common people which can not and ought not to be destroyed until either the municipality or the state shall find some way of separating this function from the private control of the saloon and establishing other centers of social life and amusement for the people that shall be in every way equal to and if possible superior in value and attractiveness, and

JEROME BITTER IN ATTACK UPON EVELYN NESBIT THAW

Denounces Her in Seathing Terms To The Jury This Morning--Shows No Mercy.

[BY ASSOCIATED PRESS.]

New York, April 10.—District Attorney Jerome began his address in summing up the state's case against Harry K. Thaw at 11:40 by telling the jury they had been wandering through the fields of romance for two days. He said the case was not one of rape but of murder. Jerome referred sarcastically to "Dementia Americana" asking if it was a higher law under which man may flaunt woman through the capitals of Europe as his mistress—and then kill. He warned the jury that it would be a violation of their oath to consider "Dementia Americana" declaring it had no status on Atlantic seaboard. Jerome made a fierce attack upon Evelyn Thaw, referring to her sarcastically as the "angel child" and saying she seemed always to be ready to go to "the human ogre who stripped her of her virtue." He denounced

her story as false. He said it seemed to him the voice of the murdered White was crying out to him: "Can't you say one word for me? Must I go down to the fires of Hell—unheeded, undefended?" Jerome took up the character of Evelyn Thaw. He said Evelyn's diary was the key to the whole story. The police had delivered the diary to him the night before he put it in evidence and it did not come from Evelyn's mother.

Jerome characterized the killing of White as "simply a common vulgar, everyday tenderloin homicide," and said: "Would you gentlemen acquit a cold blooded, cowardly murderer on the ground of 'dementia americana'?" He referred to Thaw's much discussed letters to Attorney Longfellow, as "the erratic and vulgar productions of a rich, illiterate." Jerome finished at 3:46 and Justice Fitzgerald will charge the jury at once.

JOSEPH PULITZER VERY OLD AT AGE OF SIXTY

Proprietor Of New York World Threatened With Complete Nervous Breakdown And Blindness.

[SPECIAL TO THE GAZETTE.]

New York, April 10.—Joseph Pulitzer, proprietor of the New York World and one of the outstanding figures in the journalism of the United States, was sixty years old today. It lacks but one of forty years since Mr. Pulitzer, then a raw Hungarian immigrant, first took up newspaper work, and the work and strain of a years' that followed have begun to tell upon the veteran editor. He has aged visibly in the past few years and frequently he finds it necessary to take an absolute rest from his labors. For ten years or longer he has been a sufferer from nervous prostration, and added to this has been the more grievous calamity of failing eyesight.

Mr. Pulitzer has been in control of the World since 1883. In his earlier years he had experienced all the hardships of life. When he arrived in the United States, after undergoing various trials in his native Hungary and in France and England, he was a poor young wanderer, less than 20 years of age. He earned a living as best he could.

When the civil war broke out he entered the army of the Union as a cavalryman in a Missouri regiment, served in it till peace was declared, returned to New York, and then, as he himself has often told, worked at anything that turned up, getting his food in the cheapest eating houses and sleeping sometimes on a bench in a public park.

Finally he went back to Missouri, where, after working some time as a waiter, he found employment as a reporter for a St. Louis German newspaper, and after a time was elected to the legislature. He became still better known, and a short time later ventured into the newspaper business on his own account.

Having made some money out of his St. Louis paper, he came to New York, once more and secured possession of the World. Into this he threw all his qualities of "bustle" and energy. The result was that at fifty years of age Mr. Pulitzer had won the success which he desired: the fortune, which comes with success and the power which comes with fortune.

RUSSIAN FAMINE FELT BY HUNDREDS OF THOUSANDS

Many Will Die Before The Next Harvest Unless They Are Given Help At Once.

[BY ASSOCIATED PRESS.]

London, April 10.—Dr. Kennard, commissioner of the Society Friends, who was sent to investigate the Russian famine, writing from Samara in the heart of the famine district, appeals to the United States and Great Britain to promptly send help. He says: "There are twenty millions of people distributed in the southeastern provinces of Russia, who without aid cannot live to see another harvest."

In Samara alone the commissioner adds, thousands are dying, 750,000 starving of the latter only 372,700 are getting relief in the shape of a dose of one meal in 24 hours. As the meal is only two pounds of bread and a bowl of soup, this, according to the commissioner, means dying by degrees. Even this meagre dole in countless instances is divided among provinces of Russia, who without aid cannot live to see another harvest.

MAYOR BECKER WILL BECOME INSTRUCTOR

Milwaukee's Boy Executive to Teach Use of Fire Alarm Boxes in the City.

[SPECIAL TO THE GAZETTE.] Milwaukee, Wis., April 10.—Mayor Becker now proposes to teach Milwaukeeans how to use the fire alarm system in order to stop certain uninformed persons using the alarm boxes to deposit mail. Alderman Peterson will introduce a resolution in the common council providing demonstrations in the workings of the fire alarm system. Chief Clancy thinks that such good will result from this plan.

Takes the Credit.

Chief of Police Janssen will retain his office despite a threat from Mayor Becker to oust him. The mayor and the chief got into a row at Madison last night in the capitol, while discussing a bill relating to the powers of certain officers in reference to a police and fire departments. After a heated argument, the mayor is said to have threatened to discharge the chief, but this morning Mr. Becker issued a statement in which he said he was opposed to gambling and takes full credit for having closed the gambling houses here.

Married Today.

Miss Jeanette Mitchell, daughter of the late U. S. Senator Mitchell of Wisconsin, was married here this afternoon to Mitchell Mackie. The wedding took place at the country home of Mrs. Mitchell, mother of the bride.

PRESBYTERIANS IN CIVIL COURT SUIT

Unionists of Cumberland Society Fighting Anti-Unionists—Action Is Test Case.

[SPECIAL TO THE GAZETTE.] Boonville, Mo., April 10.—The suit brought by the union element of the Cumberland Presbyterian church at Warrensburg against the anti-union element at that place was called for trial today, having been brought here on change of venue from Warrensburg. The union element is seeking to enjoin the anti-union element from using the church heretofore used by the Cumberland Presbyterians. The suit also aims to prevent the confession publishing and selling the confession of 17th of the Cumberland Presbyterian church and from using the name of Cumberland Presbyterian. The result of the suit is awaited with much interest as it involves all the property questions that have been raised or are likely to be raised in other states. The fight will be waged by eminent counsel on both sides.

medleys of popular music included a
wide range of themes ranging from
the classics to Louis Gunning's
"Swing Song" in "The Flower Girl."
Richard Carl's blithe carol to
"The Lemon in the Garden of Love."
The festivities were in progress until
12:30. Among the visitors present
were: Mr. and Mrs. Frank McNameara
of Hayward, Wis., and Miss Flora Mc-
Lean of Chihuahua, Mexico. The so-
ciety will be concluded with one more
dance.

GIVEN TO ALL

A Scientific Secret no Lon-
ger Owned by Doctors.

COSTS LITTLE—DOES WONDERS.

An old family doctor gives out this
formula at the close of a successful
practice of years. He says 50 per cent
of the suffering of mankind is due
either to the kidney, bladder, stomach
or bowels being out of order, and
makes the astounding statement that
a simple prescription which is not ex-
pensive at all may be prepared by any
druggist or at home that will give sur-
prising and gratifying results.

He gives out his knowledge that
he has taken years to attain in the hope
that it will benefit mankind, and it is
intended for all cases of kidney, blad-
der and stomach trouble or chronic
constipation, the relief being felt at
once and the cure remaining perma-
nent. This is what he says to do:
Go to your druggist and ask him for
1 oz. Essence of Pepsin, 1 oz. Liquid
Bucara, 3 ozs. Syrup of Burdock. Dose
for adults, a teaspoonful before each
meal and at bed time.

It is not expensive and may save a
big doctor's bill. You would be sur-
prised to know the many thousands of
people who feel badly and cannot tell
what their trouble is. He says that
those who have taken this prescrip-
tion have been benefited at once, and
where they have taken care of them-
selves have become cured.

SHORT TALKS BY
L. T. COOPER.

NERVOUSNESS.

Nervousness makes people miser-
able, blue, and unhappy. They think
something terrible
is going to happen.
At night they toss
and worry and are
not rested. They
tire easily and
have much en-
ergy. They think
many things are
the matter with
them—Consump-
tion, Kidney trou-
ble, or twenty oth-
er diseases. It's
just stomach trouble, nothing else in
the world. Two bottles of Cooper's
New Discovery will put the stomach
in shape in three weeks. I know this
because I've seen it tried a thousand
times. Then all nervousness will dis-
appear. I know this too, because I've
seen it happen a thousand times.
Here's a letter I got the other day:
"My system was badly run down
and my stomach and nerves in an
awful shape. I could not digest my
food, was always tired and would
often feel faint and dizzy."
I had heard so much of your New
Discovery medicine that I began tak-
ing it. Relief and strength and hap-
piness were found in the very first
bottles and the benefit have received
from it has been truly wonderful. I
am no longer nervous; my appetite
and digestion are good and I eat
everything and sleep well." Mrs. W.
J. Schauer, 220 Guthrie St., Louis-
ville, Ky.

We sell Cooper's New Discovery. It
makes tired, worn out, nervous people
happy.

..Forty Years Ago..

Janesville Daily Gazette, Wednesday, April 10, 1867.—Donation Party.—The Baptist society are making preparations to give Mr. Hodge, their pastor, a donation visit in Lippin's Hall on Tuesday evening of next week.

The Reason Why.—It has probably been noticed that the wheat market rules higher in Janesville than at the lake ports. This is explainable by the fact that our millers are buying grain at Milwaukee and Chicago and ship it here to grind into flour.

Have Bought a Lot.—The Congregational Society at a meeting held last evening decided to purchase a lot of Rev. Mr. Foster, next adjoining their present church edifice. The price agreed upon was \$2,300. We believe the purpose of the society is to build their new edifice in close proximity to the old one, and to use the latter until the new one is completed.

High School Examination.—The examination of classes at the high school commences tomorrow, to be continued through Thursday and Friday. It is due to the teachers and the board of education that the parents and friends of education should attend the examination and judge for themselves whether the teachers are faithful to the trust reposed in them. They invite such attendance and are willing to abide the judgment that may be passed upon them.

Dressing up.—The Olow Reaper factory is donating a new coat of brown paint, much to its improvement in looks.

ed-houses has never been her lot. Her career on the stage is a proof of the fact that she has aimed at being a lady and an artist first, and her success is a further demonstration that respectability in private life and genuine dramatic ability are more acceptable to the general public than the ephemeral notoriety which scandal may give to a lady who prominently comes before a public notice. Miss Coghan will be seen at the Myers theatre tonight in Bernard Shaw's greatest and most discussed play, "Mrs. Warren's Profession." The cast is a most noteworthy one and the production complete in every detail.

OIL MAN ACCUSED OF FRAUD

H. H. TUCKER, JR., INDICTED, ARRESTED AND HELD IN BAIL.

Promoter of Uncle Sam Company Charged with Misusing Mails—Asserts His Innocence.

Topeka, Kan., April 10.—Following his indictment on the charge of using the mails to defraud, returned by the federal grand jury, H. H. Tucker, Jr., of Cherryvale, Kan., secretary and promoter of the Uncle Sam Oil company, who was arrested late Monday night in Kansas City, was arraigned in the United States district court here Tuesday afternoon.

Judge Pollock fixed Tucker's bond at \$15,000 and at three o'clock he left for Kansas City, in company with an officer of the court, to secure bail.

It is charged in the indictment that Tucker has sold about \$1,200,000 (cash value) in stock in the Uncle Sam company, with a par value of over \$10,000,000; that the sum of about \$20,000 already paid in dividends was taken from the receipts of stock sales and not from the earnings of the company, and that while this was going on Tucker was using the mails to accomplish the sale of more stock; also that the assets of the company are now \$150,000 less than the money received from the sale of the stock.

Mr. Tucker gave out a printed statement of his defense, in which he said: "When the people of this country know the truth they will suspend judgment until the case comes to trial. I have committed no crime, have defrauded no man, and every dollar I have in the world is invested in the Uncle Sam Oil company. I have solicited money from the people of the United States in absolute good faith, and with this money have built three refineries and 150 miles of pipe line and purchased thousands of acres of the best oil lands in Kansas and the territories."

BINGER HERRMANN CORNERED.
Admits His Son Made and Bought Homestead Entries.

Washington, April 10.—Interest in the trial of Binger Hermann for destroying public records received a decided impetus when the defendant, who had been testifying in his own behalf for the past five days, was put under cross-examination shortly before the close of the session of court Tuesday.

After saying positively that no members of his family had acquired public lands during his administration, Mr. Hermann qualified the statement later by admitting that his son Schiller had made a homestead entry, to which title had not yet been acquired; that Schiller had purchased three such entries before patents had issued to the claimants, and that these purchases had been acquired for \$3,000 in gold by the defendant to relieve Schiller's embarrassed financial condition.

BIG BLAZE IN CHICAGO.
Hollister Bros., Printers, and Others Are Burned Out.

Chicago, April 10.—Fire that broke out at midnight Tuesday night gutted the six-story brick building at Market and Madison streets, occupied by Hollister Bros., printers and engravers, and several other firms. The loss was over \$310,000. On the top floor was a supply of fireworks the explosion of which made the fire most spectacular.

More than 65 tons of paper were stored in the basement and Fire Chief Horan said it would burn for a week. Three persons were injured and one of the dozen buildings of the Western Electric company at Forty-eighth avenue and West Twenty-second street, Hawthorne, was destroyed in the evening by the explosion of a large tank of varnish in the store-room.

PUTS O. P. HUNDLEY ON BENCH.
President Ends Long Contest Over Alabama Judgeship.

Washington, April 10.—President Roosevelt Tuesday appointed Oscar P. Hundley of Huntsville, Ala., to be a United States district judge for the northern district of Alabama. The president's action ends a long contest for this office for which there were a number of applicants, both Republicans and Democrats. There was said to be considerable opposition to Mr. Hundley from members of his own party and Senator Pettus, who has taken an active part in the fight against his appointment, recently lodged a vigorous protest against him, declaring that the feeling against Mr. Hundley was participated in by a large contingent of the Republicans of Alabama.

Alleged Swindlers Arrested.
Denver, Col., April 10.—Ten men who have been connected with the exploiting of the Lost Bullion Spanish Mines company, which claims to own a fabulously rich mine near Silver City, N. M., were arrested Tuesday by federal officers on indictments returned by the federal grand jury at Pueblo last week.

Memphis Jockey Club Indicted.
Memphis, Tenn., April 10.—Charged with permitting betting at its matinee races held Saturday, April 6, and thereby violating the Foust anti-race track betting law recently passed by the Tennessee legislature, the new Memphis Jockey club was indicted late Tuesday by the Shelby county grand jury.

WISCONSIN WEATHER FORECAST

Fair tonight, warmer west and central; Thursday increasing cloudiness, warmer.

THE THAW TRIAL

The Thaw trial has practically closed, and whatever the merits or demerits of the case the country has occasion to rejoice that the end is near. It has cost New York at least \$100,000, and it has cost the nation a shock from which it will not soon recover.

The disgusting details have been absorbed by a morbid public, and the minds of many young people have been poisoned. The standard of morality has been essentially lowered, and all because of the prominence resulting from money and a place in the ranks of the 400.

Had Thaw and White been poor men, the crime would have been none the less hideous, but the details would never have been exposed to public gaze.

There should be established in this country a censorship, which would prevent the spread of this sort of rotteness. It would in no way interfere with justice, in the settlement of this class of cases, and it would save the public from contamination.

A variety of opinion has been expressed concerning the Thaw trial publicity, and occasionally a minister has endorsed the exposure, and clamored for more, but the fact remains that the yellow-covered novel, the sensational tragedy, the story of the brothel whether in high or low life, are demoralizing in tendency and corrupting in influence.

Many a pure-minded girl will find in Evelyn Thaw an excuse for indiscretion. She poses as a heroine of a new type, and will occupy a pedestal in a certain class of minds, on that account.

Three criminals, violators of moral and statutory law, have engrossed the attention of the nation for the past three months, and the standard of morality and decency has suffered. White has paid the penalty and retired from the scene. Thaw will doubtless be acquitted, and with his wife will continue to shine as stars of peculiar magnitude in the ranks of an admiring constituency.

FRATERNAL INSURANCE

Zeno M. Host, ex-commissioner of insurance, is urging the legislature to take some action looking toward the regulation and strengthening of fraternal insurance societies. Mr. Host is an officer in one of these organizations, and he has become painfully aware of the fact that unless something is done to place this class of insurance on a sound business basis, that every last fraternal company will be bankrupt in twenty years.

These assessment companies have today 7,000,000 members who are paying from two to three hundred million dollars a year for protection. The money contributed is largely paid out as soon as received for death losses and as a result but little is left for a reserve fund.

The history of this kind of insurance is that the societies grow weak with age and finally expire leaving a lot of old men without protection, and at an age where other insurance can not be secured.

Some of the companies have been wise enough to forecast calamity, and have advanced rates in a desperate effort to avoid it, but this has proved a hardship to the older members, and many of them have dropped out because unable to meet heavy assessments.

The theory of fraternal insurance is flattering, but the principle is wrong. It is the same old story of something for nothing. The man who pays a dollar a month for protection, even though he keep it up for 20 years, is not paying for very much insurance, and the only way for him to play even is to die young and beat the game.

The men who hold on are bound to realize, sooner or later, that they are sorry victims of misplaced confidence, for which no one is at fault except the lack of business principles adopted.

Mr. Host would compel this class of companies to reorganize, establish and maintain a rate which would not only pay losses, but also provide a fund sufficient to protect the insured. It is a move in the right direction, and the legislature will do well to give it careful consideration.

The investment and income from every man who insures his life must amount to enough on the average to pay his loss, and this is especially true of fraternal companies.

The best thing that has happened to the railroads in many a day is the abolishing of the pass system. This could never have been done without the aid of government and state regulation, for competition constantly demanded favors which the roads could not afford to ignore. The rebate and the pass were constant drains on the treasury, and passen-

ger receipts at a 2-cent flat rate will show an increase. While some of the railroad legislation is drastic and stringent, there are many features which are helpful to the companies.

The state civil service laws are a farce, and the expense of maintaining a commission is money wasted. This commission is just now sending out to the press of the state an announcement of examination, which finds its way to the wastebasket, where it belongs. It is simple advertising and of so little importance that it is not considered worth paying for. The superintendents of state institutions are competent to hire all the help they need, and any interference on the part of the state means inefficient service and disloyalty.

If the people of Iowa are not good, it won't be the fault of the legislature. Everything in sight has been reformed and the only thing not subject to statutory amendment is the ten commandments. Compelling people to be good is a pleasant pastime, and Iowa has always been equal to emergencies, along this line.

The Wisconsin legislature is discussing the mill school tax with a view to modifying it. The system is a snare and delusion and should be abolished. There is no reason why the schools of the state should not be required to file an itemized budget, and ask for the necessary appropriation, the same as every other department.

The nine-hour workday among telegraphers has caused the C. & N. W. railway company to close twenty of its small offices on the Galena division. The public generally pay the freight.

What was left of Jerome's reputation has gone up in smoke in the Thaw trial. He has changed front twice, and now New York has discovered that he is a reformer of small calibre.

GREAT NAMES IN DIRECTORY.

Many Namesakes of Famous Lights of Literature.

A study of the new London Directory, which this year scales 13 pounds, is extremely interesting. In the case of literature, we are accustomed to regard the names of great authors as ending with them; yet the greatest of English writers has several namesakes scattered over London. William Shakespeare, professor of singing, almost alone carries on the artistic tradition of the name; but there is something quite Elizabethan in the address, "Green Lanes," appertaining to Henry Shakespeare, a grocer. John Bunyan is another grocer, in what Londoners will describe as "the" Edgware road. William Blake is a beer retailer, a craft that is far removed from "songs of innocence." Chaucer is a name that seems to have absolutely dropped out. Milton, of course, is fairly common, although the only John Miltons are a ship chandler and a chiroprapist, neither of them poetic avocations. Keats occurs a few times, but there is no John Keats. Curiously enough, there is not a single Keble, but there is one Defoe. The name of Bronte is owned very appropriately by a woman, but she makes clothes instead of novels.

STARS ON COINS AND FLAG.
Little Heraldry Lore Shown in the Five and Six Points.

The stars on the great seal and the seal of the president of the United States are five-pointed, while on the seal of the house of representatives they are six-pointed. The 13 stars on the obverse of the present half and quarter dollar are five-pointed. The reverse of the present half and quarter dollar is a copy of the great seal, except that the clouds are omitted. It is evident that heraldry has not taken a very strong hold in these matters in the United States, therefore it is not in the power of anyone to say without a doubt why the difference in the stars on the flag and the coins. So far as is known, with the exception of the reverse of the present half and quarter dollar, the stars on American coins are copied from the colonial coins, which were, no doubt, made after the manner of English heraldry, while the flag was made up after the design of Washington's coat-of-arms, containing three five-pointed stars.

MEDICAL COLLEGE
BEING DISCUSSED

Proposed Addition to State University Considered by Committees on Education.

Madison, Wis., April 10.—That twenty-one state universities, including all state universities of the first rank, give full four years of the medical course, and that the University of Wisconsin is the only state university of importance that does not provide adequately for students who desire to study medicine, was brought out before the joint meeting of the legislative committees on education. The committees had under consideration bill 70 S. which provides \$50,000 per annum for the establishment of a college of medicine at the university, equipped to give the first two years of the medical course. It was shown that the medical authorities of the state, including the officers of the State Board of Medical Examiners, together with a large proportion of the leading physicians of the state, favor the plan. Prominent medical authorities of the country are agreed that the first two years of the medical course can be better done at a university than in a college of medicine independent of a university. That a university which does not offer clinical instruction can nevertheless do the pre-clinical work to the best advantage, was emphasized by letters in support of the proposed plan from the president of the American Medical College, and the chairman of the council on medical education of the American Medical Association.

Plan Adopted Elsewhere.
The recent trend in medical education, it was shown, is along the line proposed. At the University of California, where until a year ago all the medical work was done in San Francisco, the first two years of the medical course have been recently transferred to Berkeley, where the university is located. When Rush Medical college was united with the University of Chicago a few years ago, the first two years of the medical course were transferred from Rush to the University of Chicago. This action, together with the unanimous endorsement of the plan for giving the first two years of medical work in the university, by scores of the most eminent medical men in the country, were believed to be strong reasons for a two years' medical course at the University of Wisconsin.

Students Suffer Now.
Unless the university incorporates into a medical college its present pre-clinical work, which covers over a year of the required medical course, it will be impossible, it was pointed out, for graduates of the pre-medical course to receive any credit for their university training. Because of recent rulings in surrounding states it is necessary for students who have taken the university pre-medical course to spend four years in a medical college before they can get the diploma of medicine. If the plan proposed be adopted, the medical boards will give credit for two years' work at the university, and the other two years' work can be done at any standard clinical medical college. Thus the combined academic and medical course can be completed in a shorter time and with less expense to the student. Unless the medical college is incorporated at the university, the present pre-medical course will necessarily suffer greatly, because the students will go to universities where they can complete their academic work and medical course in a much shorter time.

For Health Officers.
Another advantage of the plan is that when the first two years of the medical course are established, it will be possible to give a complete course in hygiene for health officers. Many of the health officers are not physicians, and have not been able to secure adequate training. If a systematic course for health officers is given, they can obtain proper training, and thus increase greatly their efficiency. This greater efficiency of well trained health officers, it was pointed out, will result in inestimable benefit to the state by improving the general sanitary and hygienic conditions in city and country and by controlling and greatly reducing the amount of infectious and contagious diseases.

The proposed plan, it was also pointed out, providing as it does for a department of pathology, will make possible the study of pathological conditions in both plants and animals. With the facilities offered by the college of agriculture it will be possible to take up the study of animal diseases as well as those of man and to investigate the relation of one to the other, as in tuberculosis, anthrax, glanders, hydrophobia, etc. It is also desired to take up the study of plant diseases. If this can be done, it is firmly believed that the monetary returns to the state through the elimination of plant and animal disease will bring to the agricultural interests many times the amount spent for the entire medical course.

ALL SPOKE WELL OF THE WORK

In a little conversation recently a lady said:

"Dr. Richards, a queer coincidence occurred a little while ago at a party I attended."

"A number of us ladies were sitting together in the corner and we spoke of having just been to the dentist's."

"Where did you go?" one asked.

"To Dr. Richards," was the reply.

"Why, that's my dentist," said she.

"He does my work too," spoke up a third.

"Mine too," said the fourth.

"And mine," said the fifth.

And sure enough, all five ladies were patients of Dr. Richards.

"Well," said Dr. Richards, "what did they say as to my work?"

"They all liked your work and spoke well of you," she replied.

And why shouldn't they?

For no dentist takes more pains to avoid hurting than he.

No dentist does better work.

No dentist is more reasonable in his charges.

Such a combination ought to make people speak well of his work.

"Try him yourself," for your next needed dentistry.

SON OF REV. J. H. TIPPETT SHOT SELF WITH .22 REVOLVER

Thinking Pistol Empty Ralph Tippett, Aged Sixteen, Discharged Bullet into Leg Yesterday Afternoon.

Believing the weapon which he carried had been emptied, Ralph Tippett, sixteen-year-old son of Rev. and Mrs. J. H. Tippett, shot himself in the leg with a .22 calibre revolver late yesterday afternoon. In company with Philip Korst, son of P. H. Korst, he had been in Spring Brook shooting at a target. On starting homeward he began toying with the pistol, thinking the magazine contained nothing but empty shells. As he held the gun at his side he pulled the trigger, discharging a bullet into his right leg. The lead entered just above the knee. Despite the wound he hurried to a physician's office and after having the wound cleaned was taken home. He was conveyed to the Mercy Hospital today and Drs. T. W. Nuzum, J. E. Pember and E. E. Loomis operated upon him this afternoon. The bullet was removed and after a few days' confinement he will be able to be about.

DENIED MOTION IN THE FIFEED CASE

Service of Complaint in Damage Action Against Milwaukee Traction Company Will Stand, Says Judge Grimm.

In circuit court today Judge Grimm denied the motion to set aside the service of the complaint, made by counsel for the defendant in the damage action of Winifred Fifeed vs. the Milwaukee Electric Ry. Co., and granted the said defendant leave to answer within twenty days upon payment of \$10 costs. In the two damage actions of A. A. Russell against the city of Janesville, the defendant was granted leave to file an answer to each of the claims, which makes it necessary for the plaintiff to file complaints so amended as to bring in the sewer contractors, Hamrahan & Lindquist, as parties defendant. The trial of the cases is suspended until these preliminaries shall have been completed.

Most Common Proper Names.

Census returns show that the most common proper names in the world are largely the same, regardless of the country where they are found. Change in the form of pronunciation of the name does not necessarily mean a different name. In England and Wales the 15 most common names are these: Smith, Jones, Williams, Taylor, Davies, Brown, Thomas, Evans, Roberts, Johnson, Wilson, Robinson, Wright, Wood and Thompson, in the order named. In Scotland they are Smith, McDonald, Brown, Thompson, Robertson, Stewart, Campbell, Wilson, Anderson, Scott, Miller, McKenzie, Reid, Ross, McKay. In Ireland were Reid, Murphy, Kelly, Sullivan, Walsh, Smith, O'Brien, Byrne, Connor, O'Neill, Reilly, Doyle, McCarthy, Gallagher, Doherty and Kennedy. In the United States the names differ somewhat in the different cities, but on the whole they are very similar.

Cat Fixes Right Time.

A woman received a telephone call one morning last week from a woman friend, asking her the time of day. The friend telephoned back it was 10 a. m., whereat the other explained that her clocks were all at 9:30, which she knew was wrong, as her pet cat had just washed its face, which it did every morning precisely at ten. Hereafter the woman proposes to regulate her clocks by the cat's ablutions.

GENERAL DENIAL BY THE STANDARD OIL

ANSWER TO THE GOVERNMENT'S OUSTER SUIT FILED.

EXCEPTIONS ALSO PUT IN

Numerous Gas Companies That Are Named as Defendants Make Reply Denying Conspiracy Charges.

St. Louis, April 10.—The answer of the Standard Oil company of New Jersey, John D. Rockefeller, Henry H. Rogers and other individual defendants and about 40 of the defendant corporations to the government's ouster suit was filed late Tuesday afternoon in the United States circuit court for the eastern division of the eastern district of Missouri.

The answer was filed by counsel Judge H. S. Priest, of St. Louis, and comprises a general denial of all the charges in the bill filed by the government and denying each paragraph in the bill in its order. With the denial exceptions were filed to all other parts of the government's bill, comprising 37 exceptions, on the grounds of irrelevancy.

May Be Heard in St. Paul.

The denial and exceptions were filed with James R. Gray, clerk of the court, which is not in session at this time. It is stated the first matter to be taken up before the court will be the hearing of the arguments on the exceptions. These arguments will be heard before the four judges, Sanborn, Hook, Adams and Vandevanter, sitting together.

The time for the hearing has not been set but the next term of the court will be held in St. Paul in May, and it is considered possible the hearing may come before the court there.

Gas Companies in Denial.

Answers to the government's suit were also filed to-day by the following gas companies, which are named as defendants in the suit: Connecting Gas Company of Ohio; East Ohio Gas company; Lawrence Natural Gas Company of Pennsylvania; Mahoning Gas Fuel Company of Ohio; Mountain State Gas Company of West Virginia and Ohio; Northwest Ohio Natural Gas company; People's Natural Gas Company of Pennsylvania; Pittsburg Natural Gas company; and Taylors-town Natural Gas Company of Pennsylvania.

They admit in their answers that the majority of stock of the companies is owned by either the National Transit company or the Standard Oil company of New Jersey, but deny being parties to any conspiracy or agreement in restraint of trade and declare they are not engaged in producing, transporting or selling oil.

Likewise answers were filed by the Buffalo Natural Gas Fuel Company of New York; Commercial Natural Gas Company of Pennsylvania; National Fuel company; Oil City Fuel Supply Company of Pennsylvania; Pennsylvania Gas company; Salamanga Gas Company of New York; and United Natural Gas Company of New York, to the effect that the Standard Oil company of New Jersey does not own any interest in the stocks or properties of these companies. They declare they are solely engaged in producing and supplying gas.

The Manhattan Oil Company of Kansas, an asserted independent concern named as a defendant, filed an answer making a general denial of all the charges in the government's bill of complaint.

MUDSLIDE BLOCKS RAILWAY.

Union Pacific Tracks Buried Deep at Aspen Tunnel.

Cheyenne, Wyo., April 10.—A mudslide occurred at the east portal of the Aspen tunnel, east of Evanston, on the Union Pacific railroad, Monday night, and traffic between Green River and Ogden is at a standstill. Codicil to Conner's Will.

Joplin, Mo., April 10.—A codicil to the will of the late Thomas Conner, state senator and millionaire mine operator of this city, was found Tuesday. By its provisions Tiffin, O., his boyhood home, and the city of Joplin each will receive \$100,000. An equal amount is provided for the maintenance of his wife, who is an inmate of a sanitarium at St. Louis. The remainder of the estate is to be distributed in equal shares among his nephews and nieces and Agnes O'Heron Conner, an adopted daughter.

Kenoshans 'Accused of Perjury.

Kenosha, Wis., April 10.—Frank L. Jackson and Shelly H. Montgomery were arrested Tuesday on a charge of perjury made by District Attorney Baker. They were the principal witnesses in the trial of Edward Collier, the chauffeur convicted of manslaughter last week for running down and killing aged William Dreyer last July. They are connected with leading families in Kenosha.

Texas Law Kills Speculation.

Austin, Tex., April 10.—Both branches of the Texas legislature Tuesday passed a law absolutely prohibiting the operation of bucket-shops, cotton exchanges or any dealings in futures in Texas.

HUMORS IN THE BLOOD

Coming of Warm Weather Forces Them Out, Causing Itching, Burning Skin Eruptions.

The blood and skin are so closely connected that whatever affects the one has a corresponding effect on the other. When the blood is pure and healthy the skin will be soft, smooth, and free from all eruptions; but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples; or other disfiguring and annoying skin disease.

The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable, otherwise it would become hard and dry from constant exposure to wind and sun. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry scaly skin eruptions as Tetters, Psoriasis and kindred troubles.

These humors find their way into the blood through a disordered or deranged condition of the system. There is a certain amount of waste or refuse matter collected in the body every day. This is useless in nourishing or keeping the system in health, and nature intends that it shall find an outlet through the channels of bodily waste. As long as these members perform their duties properly the blood remains pure and free from infection; but when from any cause they become dull and sluggish, this refuse matter is left to sour and be taken into the blood in the form of humors and poisons. The skin is a perfect index to the blood; when we see one afflicted with a skin disease, or pimples, rashes, eruptions, blotches, etc., constantly appearing, we know that down deep in the blood a humor has taken root, and instead of supplying nourishment and strength to the fine, delicate tissues of the skin, it is pouring out its acid and unhealthy accumulations.

The skin is not only affected by the humors generated within the system, but poisons from without, such as Poison Oak and Ivy, Nettle Rash, etc., as well as poisons from metals, acids, etc., enter through the open pores and glands, and so thoroughly do they take root in the blood that they are ever present, or return from year to year to annoy the sufferer.

The treatment of skin diseases with salves, washes, lotions, etc., is along the wrong line. True such treatment relieves some of the itching and discomfort, and aids in keeping the skin clean, but it does not reach the real cause of the trouble, and at best such things are only palliative and soothing.

A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, made entirely of vegetable ingredients from nature's forests and fields, is the proper treatment. S. S. S. goes down into the circulation and neutralizes the acids and humors, thoroughly cleansing and purifying the blood, and curing skin diseases and affections of every kind. It supplies to the blood the fresh, nutritive qualities necessary to sustain the skin and all other parts of the body, and rids the blood of any and all poisons. S. S. S. cures Eczema, Tetters, Acne, Psoriasis, Salt Rheum, Poison Oak and Ivy, Nettle Rash and all troubles of the skin. Special book on skin diseases and any medical advice desired furnished by our physicians without charge to all who write.

CUBANS TO RECOVER ISLAND JULY 4, 1908

COMPROMISE DATE IS BEING ARRANGED BY TAFT.

CENSUS BEFORE ELECTION

Wishes of the Sugar Planters Taken Into Consideration — Conference Over Purchase of Church Property.

Havana, April 10.—It appears that July 4, 1908, will be the day when the control of Cuban affairs is given back to the Cuban people.

The Liberals are anxious that the final elections be held in December, 1907, and the government turned over May 20, 1908, the anniversary of the inauguration of the first Cuban republic; they also want the municipal and provincial elections held simultaneously. The Conservatives, on the other hand, desire that the final elections be held later than next December and that the municipal and provincial elections be held six months apart.

In view of this divergence of desire, a compromise which will result in the turning over of the control of Cuban affairs on the American holiday is probable.

Taft Insists on a Census.

It is known that Secretary Taft insists upon a thorough census, considering such a step absolutely necessary before successful elections can be held. This undoubtedly will require more than four months, the estimate of time theretofore made by the Liberals.

Consequently, the municipal elections would fall in October or November, but as December is the month for harvesting the sugar crop, it is recognized that elections in October or November are impracticable as they would pretty thoroughly disorganize the community at just the time when the greatest number of men are needed in the fields.

The wishes of the planters, therefore, will be heeded, and the next Cuban sugar crop will be gathered under American control.

Discuss Church Property Sale.

Mons. Aversa, the apostolic delegate to Cuba, and Rt. Rev. Peter Estrada, bishop of Havana, called upon Secretary Taft Tuesday night regarding the purchase by the state of church property in Havana which has been occupied since 1901 for government purposes, for the sum of \$1,932,143. This sale was recently arranged by Secretary Taft in Washington.

Some of the local newspapers continue to denounce this transfer with energy. They claim that the actual value of the property in question is nearly \$1,000,000 less than the secretary proposes shall be paid.

FIRE AT PHILIPS-EXETER.

Dunbar Hall Burns and Students Leap from Windows.

Exeter, N. H., April 10.—Dunbar hall, the only wooden dormitory at Phillips-Exeter academy, was destroyed by fire early Wednesday and 35 students were compelled to jump from the second-story windows. A hasty roll call at 1:30 o'clock showed that apparently all had escaped. The loss is \$50,000.

Lawrence M. Crosby, an instructor, who was asleep on the fourth floor, was severely burned.

Convicted of the Leslie Murder.

Chicago, April 10.—Howard Nicholas and Leonard Leopold were found guilty of the murder of the actress, Margaret Woody-Leslie, by a jury Tuesday evening. Nicholas was sentenced to life imprisonment in the penitentiary, and Leopold to 14 years.

Victim of Wall Street a Suicide.

New York, April 10.—Broken-hearted, as he had said, over losses following the recent slump in Wall street, Samuel B. Van Sicken, a curb broker, 36 years of age, shot and killed himself Tuesday night.

EPISCOPAL CHURCH CONGRESS IS BEGUN

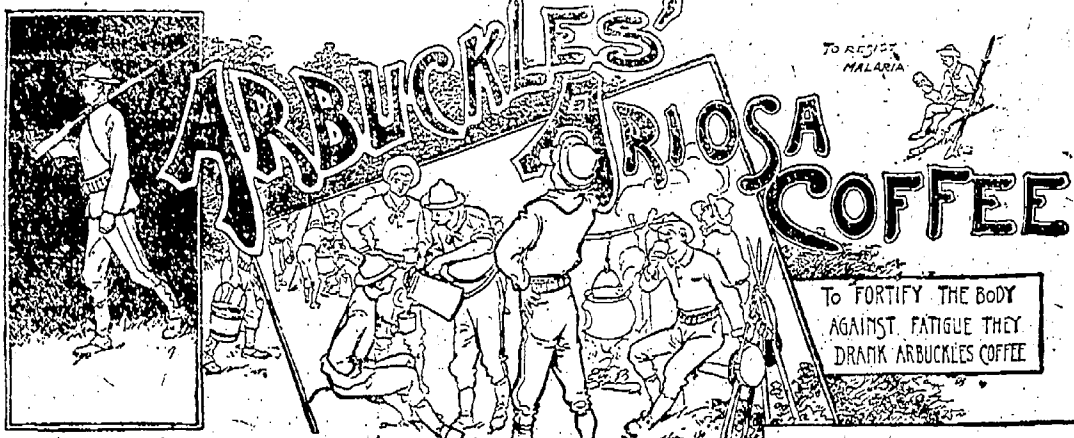

Economical Questions of Day Will Be Discussed at National Meeting in New Orleans.

[SPECIAL TO THE GAZETTE.]

New Orleans, La., April 10.—The Church Congress of the American Episcopal Church, a great national body of Episcopal clergymen and laymen, began its annual session in this city today. The attendance is large and representative and the session promises to be of wide interest. The formal opening took place this morning in Christ Church Cathedral. The opening address was delivered by the Right Rev. Albion W. Knight, D. D., bishop of Cuba. The succeeding sessions delivered by prominent clergymen and laymen on a variety of important subjects. Among the themes set for discussion are: The alleged indifference of laymen to religion; the moral strain in social and commercial life; the restriction of private fortunes by legislation; and the ethical tendency of modern fiction. Among the eminent men who have accepted invitations to take part in the discussions are August Belmont, the New York banker; Rev. William Austen Smith, D. D., of Milwaukee; Rev. Geyer R. Vandewater of New York; Cyrus Townsend Brady, the well-known novelist; Gen. Thomas L. James, former postmaster-general; Dr. P. H. Whaley of Pensacola, and Dr. Guesny of Sewanee.

An old soldier writes about ARIOSOSA Coffee: "Your coffee is the best and richest coffee I ever drank since I left the service, from '61 until I received your coffee yesterday." A soldier knows coffee by the taste, and the way it makes him feel, and would sooner go without his bread than without his coffee. Arbuckle's ARIOSOSA was the first roasted, packaged coffee, packaged for

protection of consumers, roasted and the pores of each berry sealed with a coating of fresh eggs and pure sugar, to hold the goodness in and make the coffee settle clear and quickly. MISS BARNEY DROPS Y, SUBSTITUTINGS

Change in Name Effected by Wedding to Cortlandt Dixon Barnes — Society Event.

[SPECIAL TO THE GAZETTE.]

New York, April 10.—Another was added to the list of notable spring weddings today when Miss Katherine Barney became the bride of Cortlandt Dixon Barnes. The ceremony was performed at the Park avenue home of the bride's parents, Mr. and Mrs. Charles Tracy Barnes. Miss Barney's cousin, Miss Dorothy Whitney, a daughter of the late William C. Whitney, was the maid of honor, and the bridesmaids were Miss Sarah P. Barnes, a sister of the bridegroom; Miss Jean Reid, Miss Anita Peabody; and Miss Cornelia Harriman. Mr. Barnes had his brother, Henry B. Barnes, Jr., as his best man.

Wedded at Jefferson Barracks. St. Louis, Mo., April 10.—At Jefferson barracks today Miss Catherine Luhn, daughter of Major and Mrs. Luhn, formerly of Spokane, Wash., was married to Lieut. James Pachet, U. S. A. A feature of the wedding was a brilliant military reception. Lieut. Pachet and his bride will depart soon for the Philippines.

NOVEL MISSIONARY EXHIBITION OPENS

London Society Has Collected Side Show Features to Illustrate Conditions.

[SPECIAL TO THE GAZETTE.]

Edinburgh, April 10.—A missionary exhibition, probably the most notable affair of its kind that has ever been given anywhere, opened in Music hall in this city today under the auspices of the London Missionary society. The great hall has been divided into six courts, representative of India, China, Africa, New Guinea, Madagascar and South Sea islands. The display comprises several thousand exhibits illustrative of the industries, arts, religious customs and superstitions of heathen lands. In a separate room there are to be seen a Chinese opium den, a Chinese guest room, Indian zenana, native zenana, native market in Madagascar, African village, idol shrines and a large model of the steamship John Williams, the missionary ship of the South Sea islands, manned by a crew of sailor boys. During the ten days the exhibition will continue there will be an interesting series of missionary tableaux and lectures.

Really Bitter-End.

A teacher had been reading to her pupils a story which contained the words "bitter end." A child asked what it meant, and the teacher in turn asked if any child could use the words in a sentence. One little girl raised her hand and gave her idea as follows: "I had a little kitty, and a dog chased her, and when she was running under the porch the dog bit her end."

Church's Trade Mark.

I was visiting the city of Louisville, Ky., says a correspondent. One day my father took myself and little brother, age four, out for a walk. We passed many churches, and I noticed that all the churches had crosses on them. I then asked my father why all the churches had crosses on them, when my four-year-old brother spoke up and said: "Why don't you know that is their trade-mark?"

Successful "Faith Tea."

A "faith tea" was held at Swanage, England, in connection with a temperance mission. No provisions were ordered, but those attending were to have faith and trust that the necessary food would be sent in. So generous was the supply that not only was there enough for tea, but a supper was added later in the evening, and the scriptural basketfuls were left over for distribution among the poor.

His Means of Livelihood.

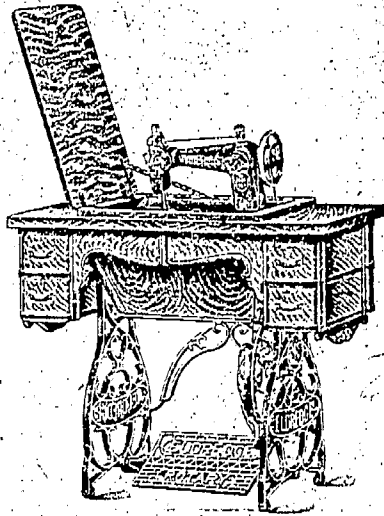

"He's an accountant," said a witness on the stand in an English court the other day. "I mean that he makes his living by advising people as to getting reductions in their income tax." "Oh," said the judge.

Invented Eau de Cologne.

The inventor of eau de cologne was an Italian, Giovanni Farina. Farina offered vainly to sell his recipe for \$2,750 in 1905, but a few years ago it was sold by his heirs for \$200,000.
